# ASTHMA LEGENDS

## Here is a list of some famous people with asthma.

You probably haven't heard of most of them; and some of them are older than your mum and dad ... or even dead! But they've all done some pretty amazing things.

Use magazines, books, newspapers, library archives and the internet to find out more about these people. Once you've done that, put each name into one of three groups: sports, entertainment, or history/politics.

Finally, choose one person and write 70 to 100 words about his or her life. Imagine the kind of things they had to do to control their asthma and become successful in their particular field.
