

# Sexually Transmitted Disease

Name..... Class.....

## ACTIVITY 1

Using the following list of keywords below complete the following paragraph.

chlamydia	bacterial	sexual	diagnosed	public
survey	transmitted	viral	STI	problem

Sexually \_\_\_\_\_ diseases or sexually transmitted infections are bacterial, \_\_\_\_\_, fungal or  
lice infections contracted during \_\_\_\_\_ contact. In 2000, 229,574 people were \_\_\_\_\_  
with and STI. The \_\_\_\_\_ is compounded by \_\_\_\_\_ ignorance. In a recent \_\_\_\_\_  
87% of men and 65% of women had not heard of \_\_\_\_\_ and did not know anything about  
it. Chlamydia is the most common \_\_\_\_\_ infection. Diagnoses of this \_\_\_\_\_ rose by 107%  
between 1995 and 2000.
